

Project

MARC SLEEN FOUNDATION

Architects

ATELIER GIGOGNE SPRL

Address

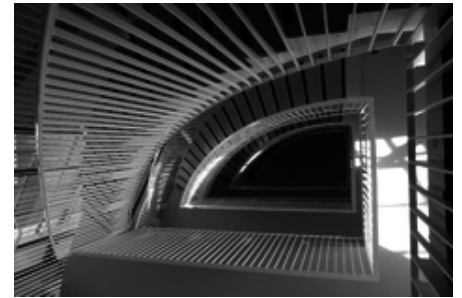

rue des Sables 33-35, 1000 Bruxelles

Programme

Refitting of a listed building into a venue to conserve and exhibit the works of the comic strip artist Marc Sleen.

About

The project also made it possible to increase the useful surface and the exhibition potential. Crossing the space from one side to the other, a footbridge helps to increase the exhibition surface and frees up the floor of the premises to ensure its multi-purpose character. This plan blends in with the listed surroundings, while reclaiming the vestiges of a partially destroyed stair
