

Project	BEA	
Architects	ATELIER D'ARCHITECTURE COCINA	rue Hullos, 119 4000 Liège
Programme	Redevelopment of an office to streamline the spaces and make them more user friendly.	Tél : 042221956
About	The project entails reorganising the flow of movement around a central service area. The initial central corridor is removed to make way for two side corridors separated from the offices by a glass wall bringing light to the centre of the wing. In the middle, service and engineering rooms are grouped together in a mauve block linking the flows of movement around it.	archi@aa-cocina.com www.aa-cocina.com
Typology	Offices (include mixed use)	OTHER PROJECTS :
Status	Built	OI Fosse d'Outh - 2013 2015
