Project	# MR SAINT JOSEPH
Architects	CRÉATIVE ARCHITECTURE SPRL
Address	Chaussée de Heusy, 77, 4800 VERVIERS
Programe	Transformation, maintenance and upgrading to standards of an existing rest home in a building from the early 20th century into a modern and efficient building. It can now host 200 beds and there is a space for disoriented people.
About	It had become difficult to live in the building hosting the rest home, for the inhabitants as well as for the staff. The extension project has solved a lot of issues in terms of reception, security, access, logistics, energy consumption, ? but has also given back to the inhabitants many pleasant living spaces as well as individual rooms with private toilets. The construction work took place while the house was still in activity. The planning of these construction works has been studied to let the house function safely but also not to disrupt the residents and the staff. We kept most of the existing park by creating a maximum of new built areas from the existing building whose heights allowed the realisation of an extra floor without having to increase the total height of the building. Back extensions were also added to the transformation. An important arrangement work was made in cooperation with the contracting authority and our architects. The furniture has been entirely designed to measure and special focus was put on colours and materials to emphasis the high quality existing spaces. The general opinion is that the house is a success.
Typology	Health
Status	Built
Conception	2007-2010
Delivery	2014
Client	CPAS de VERVIERS
Total budget	13.906.527
Co-author	Altiplan sa
