THE WHITE CUBE

Project	
Architects	LUC SPITS
Address	4600 Visé
Programe	Stand-alone dwelling
About	Located in a traditional semi-urban area, the "white cube" is deliberately contemporary, unique and quirky. This project strong character at first seems intimate and protected. However, once the facade to street crossed, we find a large interior space bathed in light and fully open to the neighboring country. The interiors are simple and refined. They highlight the strength and finesse of the dominant architectural lines.
