## Programme

When designing an architectural space, a piece of furniture or object, we set out to reach a point where it has "always existed". This quest is not driven by the need for measurable things, for functionalist rigour, for constructive rules, but above all by a desire that allows the thing to exist, that of the founding principle of the object, its poetic essence.  
The object that revives the memory of the object.

## About

The architectural studio's passion for designing objects paved the way for its participation in the exhibition "when architecture enlightens us" at the Wallonie-Bruxelles Centre in Paris in 2006, the design biennials of Liège in 2004 and 2006 and in the MOBILIER#3 at the contemporary art center /2003.

Since 1998, the studio is regularly entrusted with scenography commissions, both in Belgium and abroad.  
These commissions have sometimes resulted in the study of exhibition furniture and lighting equipment.  
2012/ Exhibition "circonvolutions", collections of Mad museum at the Curtius Museum in Liège. Commissioner and scenography  
2009/ Exhibition "Le grand Placard" at the MAMAC  
Design Biennale 2008 Liège "[é]vocations" at the museum of Walloon life  
2001/ Exhibition Meuse-Rhine "ici se construit l'Europe" Liège, Tongeren, Eupen, Aachen, Maastricht.  
1999/ "Architecture in Wallonia in the 19th and 20th centuries" cycle of five travelling exhibitions :
