CORBACREATIVE

Address

rue Charles Frère, 4020 Wanze

Programme

Architectural competition in view to build a school.

About

The building consist to a set of hexagonal prefabricated solid wood elements inspired by the organization of the hive. The alveolar model is used for its economy of material, its functionality and modularity.

The spaces are composed of three wings including nursery, primary section and refectory.

These spaces are arranged to produce outside areas including a courtyard and the parking area. In the center, knowledge is represented by the library and the teachers'room.
