The award is granted every two years to acknowledge and reward quality architectural production in Europe. The Prize seeks to to recognise European architecture in conceptual, social, cultural, technical and constructive terms. It highlights the European city as a model for the sustainably smart city, contributing to a sustainable European economy and promotes transnational architectural commissions throughout Europe and abroad. It also aims at increasing the incorporation of architectural professionals from the EU Member States and those countries that conclude an agreement with the EU, at cultivating future clients and promoters, finding business opportunities in a broader global market and highlighting the involvement of the European Union in supporting architecture as an important element that reflects both the diversity of European architectural expression and its role as a unifying element to define a common European culture.
