INTERIORS. NOTES AND FIGURES, INVITED BY STRELKA OF MOSCOW

Address

14, Bersenevskaya Embankment, BLDG 5A, RU Moscou

The team of Interiors. Notes and Figures, presented in the Belgian pavilion at Venice Architecture Biennale 2014, are invited to give a lecture in Moscow. The Strelka (Institute for Media, Architecture and Design) invited them in the frame of the lectures they organize on July 3-4 on the topic "New Urban Routines". Strelka Conference brings together those researchers who explore and analyse multiple routines of contemporary cities and those designers - in the widest possible sense of the world ? who try to format or reinvent the everyday. Historians, sociologists, urban anthropologists, curators, urbanists, and architects will join the discussion about how our ordinary life evolves under pressure of rapid modernisation and politico-economical fluctuations and how cities change along.

Date

3-4/07/2014
