PIERRE HEBBELINCK EXHIBITED IN AMIENS - FRANCE

Address

Maison de l'Architecture de Picardie Rue Marc Sangnier 15, FR
80000 Amiens

The Maison de l'Architecture of Picardie presents the exhibition
Resultats de concours from October 15 till December 12th
2015 in Amiens.

Among the exhibited projects you will find the Cultural Centre
of Montataire realised by the Atelier Pierre Hebbelinck in
association with the Lille-based office HBAAT.

The project consists in the transformation, renovation, and
extension of a Perret (1949) market building for a cultural
centre housing a music school, a dance school, a broadcast
room, and a recording studio.

The Perret brothers market building was magnified by
liberating the original frames. Walking, waiting, and the
practice of music are activities based in this slender concrete
landscape bathed in natural light. The three facilities take
advantage of the height of the central wing to become part of
the core of the structure, spreading from one end to the other.
The spaces between the frame and the program were liberated
to become spaces for meeting and artistic expression that
extend the urban space.

Date

15/10/15 - 12/12/15
