## SNCD A AND EVA LE ROI: EXHIBITION ALLURES IN ORLÉANS - FRANCE

Address

Frac - Centre 88 rue du Colombier, FR 45000 Orléans

From October 9th 2015 to February 21st 2016, the Allures cycle proposes a journey through the Turbulences galleries at Frac Centre. Allures (Aspects) proposes to explore a selection of works from the Frac Centre -Val de Loire Collection, the respective singularities of which help us perceive how they might express the notion of urban and architectural presence. The presence of invited contemporary artists and architects (Farah Atassi, Eva Le Roi, Studio sNCDA, Office KGDVS, Vincent Lamouroux, Hayoun Kwon) blends in with exhibits from the Collection. Symmetries come into play, breaking through any containment attempts, questioning our methods of organising and defining knowledge, (re)cognition, and perception of what is tangible. Still, these heterogeneous worlds draw the outline of a manifest consistency of artistic production, whether it belongs to the field of art or of architecture.
