Av Reine Astrid 452  
1950 Kraainem

## Description

### L'ATELIER

An architectural project is worked out while answering a multitude of constraints, it acts to create an environment favourable for human activity. We all know that we do not only live thanks to some protéines which enable us to function : the quality of our life, the force of our memories, the importance of our interpersonal exchanges, the reading of the environment, all these moments wake up in us emotions.

### THE WORKSHOP

¿A workshop is a place where several artisans are working together?. Our 25 years of experience allow us to work in several fields such as residences, office and commercial buildings, as well as museums and galleries.

### SOME KEY SENTENCES

To endorse emotion.

Whatever the size of the work, what count is the persons qualities who work together.

Integration is the ability to endorse the setting qualities.

Esthetics are defined by proportion.

### LANGUAGES

We can treat your files in the following languages: French, English, Dutch, Spanish, Italian.

### EXPERIENCE ABROAD

We have realized constructions in the following countries: Belgium, Caribbean, Germany, Greece, France, Great-Britain, Italy, The Netherlands, Peru, Portugal, South Africa, Spain, Switzerland, United States.
