

Architects

# FRANÇOIS ELLEBOUDT ARCHITECTE SPRL

Description

Francois Elleboudt (1975)

June 1998, Architecture Diploma (Institut Supérieur d'Architecture Saint-Luc Liege).  
2000, as independent architect.

Projects are developed either for transforming, renovating buildings or new infrastructures.

Keywords are listening, dialogue and exchanging ideas between partners trying to implement confidence.

Concepts are developed through good sense and rational analysis of the project. Respecting environment, saving energy, integrating to landscape and taking care to today's mood are the basic references of the realisations.

Budget control and choice of contractors are a guarantee of quality.

Creation

2000

Rue de Claminforge, 95  
5070 Le Roux
