MORALES FINCH

Architectes

Description

Morales Finch was founded by Emilie Morales and Tom Finch in London, 2016.
Having met whilst working in practice together, they share previous experience working in prominent UK and Belgian architecture offices.
Morales Finch forms a natural progression of this relationship and builds upon a number of previous collaborations. The studio is involved in a wide range of work, from furniture design to buildings, in the UK and abroad. This variety is deliberate and represents an interest and motivation that seeks to represent a set of common interests, irrespective of their scale.
Current projects include several private London houses, contributions to a forthcoming exhibition at a major London gallery, an artist?s studio and a London retail space.
From April of 2017 Morales Finch has occupied an additional Brussel?s studio, from which they will work on a number of Belgian projects.
