KARBON' ARCHITECTURE ET URBANISME

Description

Karbon' architecture et urbanisme is a Brussels-based cooperative that has been active in Belgium since 2008. Today we bring together 16 architects and urban planners with a common approach and a great complementarity. Karbon' has numerous projects and studies to its credit, which bear witness to the office's ability to tackle territorial, landscape, urban, architectural and furniture issues relating to a wide variety of scales and contexts, as well as to multiple methods of reflection and intervention.
