

Project

HOUSING ALONG A RIVER

Architects

AB6 / ARCHITECTURE*

Address

Dave

Programme

The house had to be built on stilts because located in a flood zone, only the lobby, pool and services are located at ground level. Upstairs you can find large living pieces with garden and the river view. On the 2nd floor, it closes the master suite.

About

Single family residence with pool

Typology

Private houses

Status

Unbuilt

Conception

2009
