HOUSING ALONG A RIVER

Project	
Architects	AB6 / ARCHITECTURE*
Address	Dave
Programe	The house had to be built on stilts because located in a flood zone, only the lobby, pool and services are located at ground level. Upstairs you can find large living pieces with garden and the river view. On the 2nd floor, it closes the master suite.
About	Single family residence with pool
Typology	Private houses
Status	Unbuilt
Conception	2009
