| Project | "GALATEA"NURSERY |
| Architects | ATELIER DE VISSCHER & VINCENTELLI |
| Address | RUE GALLAIT 176, 1030 Bruxelles |
| Programe | Demolition of a warehouse, renovation of a 19th building in housing and construction of a nursery for 48 children . |
| About | The implementation of three sections of nurseries and their respective courtyards on a narrow plot ( 8 meters by 65 meters ) in the middle of a densely built area has pushed us to work on both the search for intimacy inherent in the small childhood and the generous amount of natural light .<br>This work has led us to create a roof landscape under which grow spaces for children, both internal and external .<br>Closely with WoodNey this roof landscape was designed as a folded sheet of paper made of solid wood panels and resting on wooden columns , completely disconnected of adjoining existing walls.<br>This new urban landscape benefits therefore also to neighbors The administrative services of the institution are in turn housed in the old mansion , located in street , whose floors are occupied by two duplex units. |
