Address

Rue Auguste De Boeck, 54 à 58 et 64 A, 1140 Bruxelles

Programme

168-beds rest and nursing home
28-flats assisted living residence

About

The project consists of two separate buildings. The first one includes a rest home and a nursing home of 168 beds. The second one is an assisted living residence of 28 appartements.

The residence is located along the street A. De Boeck and includes studios and 2-rooms apartments PRMs available. Generating a porch, it is the main entrance of the project and its only visible part from the street.

The rest and nursing home, for its part, consists of two wings built around a core that integrates vertical circulations and area of common life. The main access in the home is located at the junction of these two wings.

The whole composition is, by simple means and without undue ostentation, to give a strong presence to the building. The outdoor spaces are composed as landscape and will be used as a leisure park for residents.

Architectural mission in association with Archi 2000 sa.

Low energy consumption : K 30
