

## Project

# TRAIT DE CARACTÈRE

## Architects

OPEN ARCHITECTES

## Address

Ittre

## Programme

Construction of a single family home

## About

This single-family dwelling project is located on 38 acres of land forming part of a subdivision created in the late 1960s on the heights of Ittre.

One of the main challenges of the project was to propose a contemporary architecture taking advantage of the site, its important natural relief and the beautiful orientation located on the street side, while respecting the planning regulations.

The Client wanted a rational home in keeping with his time in terms of architecture, livability and energy consumption. This will result in simple and clean volumes, environmentally friendly materials and technical systems.

## Typology

Private houses

## Status

Built

## Conception

2016

## Delivery

2019

## Client

client privé

## Area

415

Rue de la Marbrite 9b  
7090 Ronquières
