WELCOME DESK MUSIC ACADEMY

Project	
Architects	QUATRE
Address	rue Charles Lejeune 4, 4300 Waremme
Programe	Welcome desk music academy, furniture and lighting.
About	The improvement of the visual and acoustic comfort of the circulation and work spaces dictated our intervention. A single plane partition creates the partition of the project. The furniture and the lighting are added to this element to give body to all and link spaces. This partition clearly defines the boundary between the static spaces and the places of movement. This limit is also intended to optimize and exploit traffic spaces too large. Tablets are made available to create a suitable waiting area.
