HOUSE HC

Project	
Architects	SANDRINE MARLAIR ARCHITECTE
Address	rue de la Sapinière, Marchin
Programe	Dwelling house in Marchin for a couple with a child. The site is located in a rural area and presents an important downslope.
About	This house, entirely made of wood, is naturally compatible with a forestry land. The housing is made of a big open space on the ground floor. The living areas, closed on the road side, are organized in 3 sets going slightly down towards a south-oriented bay. A concrete annexe formed of wooden boards adjoins the house, like a reminder of the omnipresence of the wood. The volumetry seeks to be pared down and contemporary. It conforms with the one of the old constructions lined up in the street to have a maximal integration to the existing rural setting.
Typology	Private houses
Status	Built
Conception	2008
Delivery	2011
Co-author	Jean-Sébastien Mouthuy

rue du Pont 47
4000 LIEGE
