Address

Bozar Rue Ravenstein 23, 1000 Bruxelles

On February 28, A+Editions launches Belgian Architecture Beyond Belgium, the first overview of the export of Belgian architecture.

The book includes a short history of Belgian architecture on the international stage, the results of round-table discussions with experts, as well as a selection of export projects of 25 Belgian architectural firms ? including several offices that have had monographic exhibitions at the Centre for Fine Arts, such as 51N4E, Robbrecht & Daem and Ney & Partners.

WBA has contributed to the publication of this book being a partner and participating in the round-table discussions.

To mark this exceptional book launch, A+ and BOZAR ARCHITECTURE organise a public discussion with Prudent de Wispelaere, Freek Persyn, Bob Van Reeth and Isidore Zielonka moderated by Audrey Contesse and Pieter T'Jonck at Centre for Fine Arts ? Studio.

Admission free, booking essential here.
