EUROTOPIE

The curators Traumnovelle & Roxane Le Grelle together with Bruce Bégout, author, propose a meeting between reflection and fiction where the architecture takes shape in the background of Europe and its capital, its history and its future. Illustrated by Claire Trotignon's collages and Philippe Braquenier's pictures, in a layout led by Jurgen Maelfeyt (6 '56"), this publication has been published within the framework of the Belgian participation to the 16th Venice Architecture Biennale.
