Maison de l'Architecture et de la Ville PACA, 12 bd Théodore
Turner, FR 13006 Marseille

N|I|C|H|E is a selection of 20 promising young architectural practices, with 20 models of one of their first large-scale projects and 20 talks. Inaugurated in 2008, this series of micro-exhibitions and talks is coming to an end. BOZAR ARCHITECTURE and A+ are celebrating their four seasons by publishing a catalogue of the series and inviting the 20 practices to bring together, for one last time, the models of their achievements.

Discover the work of A229, AGWA, B612, JDS, Ledroit-Pierret-Polet, Matador, Urban Platform, V+ among others.

The exhibition will be launched on 16th May at Maison de l'Architecture et de la Ville in Marseille.

The exhibition and the publication have been realised with the support of FWB and WBI.
