**L.-J. BAUCHER J.-P.BLONDEL O.
FILIPPONE**

The intersecting careers of three architects who graduated from Brussels' Ecole de la Cambre around 1950 capture the prevalent atmosphere and challenges of the age, along with its architectural practices and a generation's thirst for modernity. The book, realised by Manuela Dechamps Otamendi, received an award at the Prix Fernand Baudin Prijs 2011.
