ROTOR: LECTURE IN BORDEAUX

As part of the exhibition Accessible by nature, arc en rêve centre d'architecture is organizing a meeting on the theme of re-use. The exchange of experiences between Brussels and Bordeaux, via Nantes, will demonstrate the ecological and economic relevance of the reuse of materials in the world of architecture, which is being reinvented with new uses and procedures that need to be adapted.

On the Belgian side, it is Rotor that will participate in the discussion entitled re-use of building materials. It will take place on May 21 at 6:30 pm at the Parvis de l'Entrepôt in Bordeaux.
