## Description

# GS3 ARCHITECTES ASSOCIÉS

GS3 is an associate architects architectural firm characterized by its versatility. His experience spans all types of building including primarily: the residential, office buildings, collective dwellings, buildings, hospitals, school buildings, urban infrastructure and homes, listed buildings. We also pay particular attention to energy issues and environmental impacts ...

The Bureau, since 1949, has earned an excellent market experience both public and private, micro, medium or large.

GS3 is primarily associated architects in Belgium. However, its role is becoming increasingly international through the creation of a network of offices, including France, Bulgaria, Cameroon ...
