Description

R²D² ARCHITECTURE

Founded in 1999, R2D2 ARCHITECTURE s.a. has been active in numerous architectural domains, as far as both public and private buildings are concerned namely housing, schools, cultural buildings, industrial facilities, and office buildings. The agency also specialises in eco-friendly construction. Active in the eco-construction field, we are members of Ecobuild Cluster, the Belgian Platform "Maison Passive" and also of "Maison Passive France".

Her practice therefore has a presence in contemporary architecture, as far as public buildings, social context, eco-construction, energy efficiency, architectural diversity, low-energy use passive buildings, and their environmental, architectural and social integration are concerned. For them, energy efficiency is efficiency based on the optimal use of available resources.

Creation

1999

Publications

- "Art Nouveau meets passive house", Detail.de, décembre 2010.
