

## Architects

# LUC SPITS

## Description

Luc Spits's Office develops a striking architecture. It is distinguished by many contemporary and resolutely minimalist achievements.

The office succeeded in gaining an enviable reputation thanks to the quality of its service, both in terms of architectural design and technical realization.

The team is young, dynamic, ultra-creative and very responsive. It is composed of architects, designers and experienced technicians whose skills allow to offer a comprehensive range of services related to the field of architecture: urban planning, studies and expertises, plans and specifications, 3D and virtual experience, interior, construction supervision, cost control, property management, etc.

This versatility serves 4 main categories of projects :

- high standing villa
- offices and commercial area
- The Real Estate
- Major public and private competitions

Very active along the Dutch border, Luc Spits looks towards an international development. At the MIPIM in Cannes, the office gets involved and propose spontaneously projects that promote the development and skills of the region abroad.

Since 2016, the office has created two additional teams dedicated entirely to communication and 3D graphic design.
