

## Architects

## LABEL ARCHITECTURE

### Description

Label architecture is an architectural practice based in Brussels. Its three partners, Jean-Didier Bergilez (b. 1974), Michel Lefèvre (b. 1978) and Thibaut Rome (b. 1977), officially opened their agency in October 2004. All three are graduates of the La Cambre Institute of Architecture in Brussels, a city they also call home. Their projects, on various scales, are as much an opportunity to play with existing space, from their common reference points, as not to take themselves too seriously while being serious about their work. An insatiable will to play with the obvious to maximum effect.

### Creation

2004

### Associates

Thibaut Rome  
Michel Lefèvre  
Christophe Pham  
Andreas Vanyssacker
