SHSH

Description

We are everyday stimulated by the pleasure of wanting to create an unforgettable space. A simple space, moving and resting.

Our European and Asian background are combined to work out each project in its local context, by constantly sharing our cultural, social, philosophical or environmental concerns with our customers and our consultants.

Based in Belgium and UK, our office started its activity in Japan with the office Shoichi Haryu Architect and Associates / SHAA .

Creation

2009

Rue d'Alost, 7-11  
1000 Brussels
