Architects

PLAN 9, BUREAU D'ARCHITECTES SPRL

Description

Created in 1996 and consisted of 5 architects, Plan 9 ballad, pad of sketch in pocket, in the modern and modernist architecture: clean lines, simple volumes, subordination of the shape in the functional, etc.... Plan 9 returns rules established to propose its expertise regarding buildings semi passive and passive.

Seventeen years of experience make of Plan 9, a major actor of the modern architecture from Liège in:
The energy renovations, the new houses, the shopping malls and the industrial buildings.

Livened up by the research, incited by fundamental energy question and the need to see always farther, serious and professional, the architects of Plan 9 form before any a team liking pushing away its own limits and going out.
At you, to take time to discover the best of our realisations...
