

Architects

ARIADE ARCHITECTES

Description

ARIADE consists of ARIADE Architects and an office of study and consulting in energy and environmental performance ARIADE Carbon, with the common goal of contributing to the construction and renovation of sustainable buildings with high energy and environmental performance.
The office is specialized in energy demanding projects ranging from very low energy to passive and integrating principles of eco-construction at the cutting edge.

Creation

2002

rue Jean Benaets 63
1180 Uccle
