SUÈDE 36

Architects

Description

The brussels business was created on rue de....Suede, 36 in Saint-Gilles and is now located in Forest. Murielle Dasnoy and Christophe Mercier develop projects and a reflection into the process of gestation of the city. We are an eclectic firm who often relies on the citizens? participation for supporting their analysis and their creativity.

The agency works on many levels. A cross of projects of urbanism and architecture. For many years now, they are interested in public spaces, and playgrounds in particular. Their team is a geometric variable, varying the collaborations with designers, artists or specialists of re-employment.
